Collapsible Go-Cart made of leatherette. Folds up to a convenient size for carrying. Is light but

If the convenience, the comfort and the economy of cooking by gas were once known, no other means would be employed. It is as much an improvement over the old style hot and dirty coal range as the electric light is over oil for illumination.

The enormous sale of the New Method is the best proof of its superiority over other makes. The range has many features that are not found in any other style-improvements that are exclusive because protected by patents.

Space does not permit of a detailed description of these features. You would understand them better, in any event, by a demonstration. Come in any time it is convnient—no obligation. Remember, too, A DOLLAR DOWN AND 75c A WEEK WILL PUT THE NEW METHOD IN YOUR HOME.

The unique construction of this refrigerator places it far in the lead all competition. By means of its construction the greatest amount of efrigeration is obtained with the least possible consumption of ice. Come n and let us explain in detail how this is accomplished-it will prove most

There are other features of the "Gibson" that we would like to show Among them its lining. This is a specially made substance that has "Porceloid." It is hard, but not brittle. It will not crack It is of a brilliant white in color. Other features that will prove interesting are the hardwood, non-warping cases, the quality of the cabinet work and the easy-washing facilities.

Furniture. Many different materials are represented, among them being the beautiful Chinese Grass and the "Kaltex" Fibre Furniture. A suitable piece for almost any room of the home will be found, as
